SINCE 1976

Rota Chemicals, based in Istanbul, Turkey, is a leading manufacturer of leather and shoe finishing chemicals. Founded in 1976, the company initially focused on leather finishing but expanded its product line in 2000 to include shoe finishing chemicals and premium shoe care items for leather and suede.

Our premium portfolio of shoe finish creams offer a versatile range of applications:

| PRODUCT NAME | PRODUCT CODE | PACKAGING | APPLICATION |
|---------------------------|--------------|-------------|---|
| FILLER CREAM | 30 | 1 kg / 5 kg | -Helps to smooth out wrinkles and imperfections on leather. -Effectively penetrates the leather when heat is applied in the oven. |
| MATT AND SOFT TOUCH CREAM | 39 | 1 kg / 5 kg | -Delivers a matte finish on the leather and a soft touch after the initial application. -Assists in concealing defects on the leather and can be utilized as a repair cream. -Can be brushed to achieve the desired level of shine. |
| SOFT NATURA CREAM | 32 | 1 kg / 5 kg | -Provides the leather a natural luster and a soft texture -Can be polished to boost the shine. |
| POLISH CREAM | 36 | 1 kg / 5 kg | -Provides the leather with a vibrant, natural shine. -Can be enhanced further by polishing. |
| SELF SHINE CREAM | 35 | 1 kg / 5 kg | -Provides the leather with a vibrant shine even without polishing. This is our maximum shine cream |
| EFFECT CREAM | DF | 1 kg / 5 kg | -Used to generate color shades and effects on crust and finished leather -Allows for customization and artistic expressions resulting in unique designs that elevate the visual appeal of leather products. |
